For the parent or teacher

Children learn when they play. With *Compass Play Fun* workbooks, children will have so much fun they won't even realize they're learning. Big, bold illustrations introduce words that are relevant to young children's lives and interests. Simple yet engaging activities teach children how to hold a pencil, trace lines, and write the letters of the alphabet. Letters and words are reviewed with simple activities that help them stick in children's memories.

In *Alphabet Sounds*, children will strengthen their understanding of the alphabet and phonics, learning further words beginning with each alphabet letter sound.

The below icons are included throughout the book. Making sure your child understands these icons will give them independence in their own learning.
